

LANCIA APREA

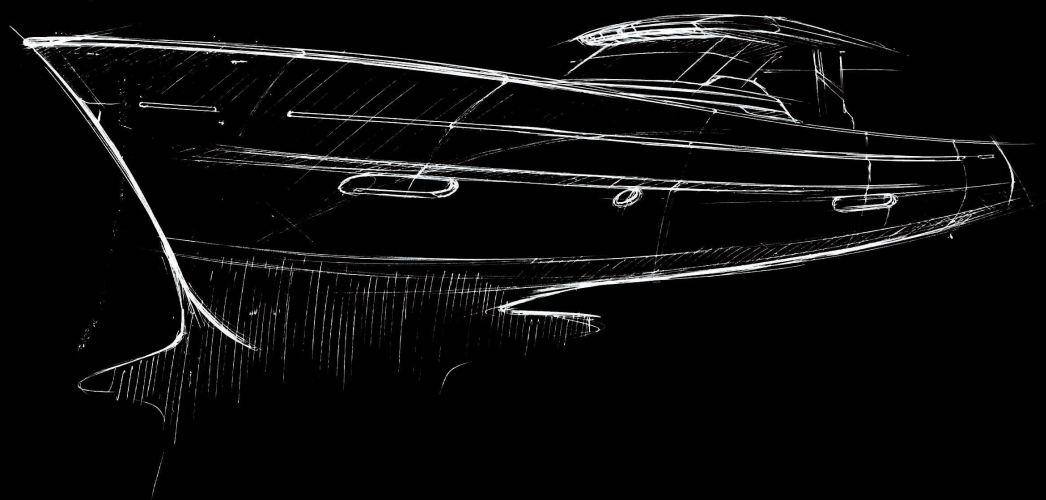

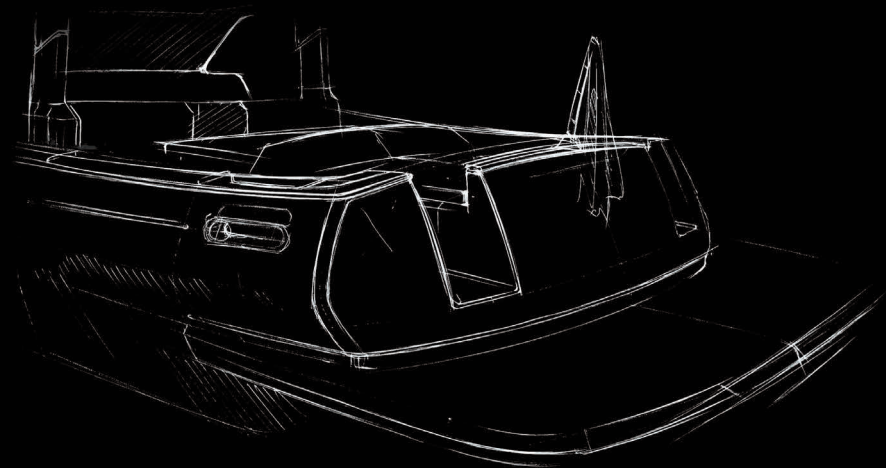

42

A new dynasty of the sea.

A perfect synthesis
of beauty and power,
passion and technique,
shipbuilding art
and modern technology.

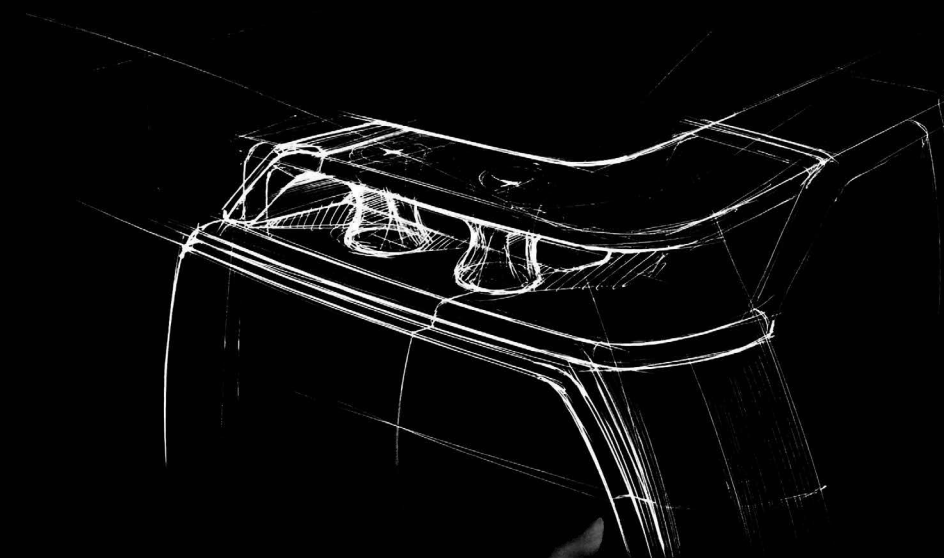

The Lancia Aprea design takes the lines of renowned Mediterranean boat with a cult following, the Lancia Sorrentina. Sorrento, known as the "Land of the Sirens", is a world-famous destination with a rich history in the art of shipbuilding. For centuries, Sorrento has been the beating heart for the creation of extraordinary fishing, cargo, and pleasure boats.

Among these, the refined Lancia Sorrentina excels - a seafaring work of art characterized by the large, load-bearing transom, which stands out for its superior capacity and great sailing speed. Together with the majestic and slender bow, it is designed to challenge the agitated waters of the Gulf of Naples with elegance and audacity.

Made in Italy.
The most authentic
and refined.

The Lancia Sorrentina was the iconic boat of the 1950s. A favourite yacht among the movie stars who crowded the route between Sorrento and Capri. Rows of impeccable white launches on the Capri quay was the charming greeting for anyone landing on the island.

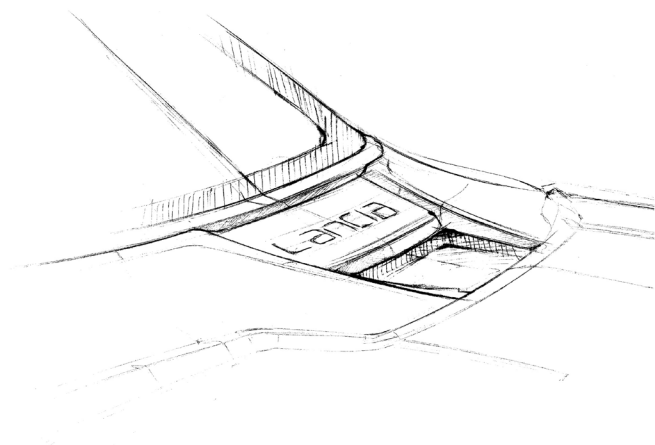

New shape,
endless love.

The new Lancia 42 of Cantieri Aprea combines tradition and innovation. This yacht, an expression of passion and nautical experience, blends artisan charm with advanced technological solutions. The design, curated in collaboration with Brunello Acampora's Victory Design, presents harmonious and elegant lines. The construction uses precious materials, such as hand-worked marine woods

and Loro Piana fabrics, underlining a meticulous attention to detail. Lancia 42 offers a navigation experience that combines comfort, style and high performance, guaranteeing reliability and safety in all conditions. Each boat from Cantieri Aprea has a soul that makes it unique, the result of a nautical tradition that has been distinguished worldwide since 1890.

The sinuous and elegant lines of the Lancia 42 capture the gaze. The deck, spacious and without steps, extends fluidly from the stern to the bow, ensuring safe movements. The main deck is a floating living room. Two large sundecks at the bow and stern, a bar, and an equipped kitchen offer the ultimate in relaxation and sociability. The large sofa is perfect for outdoor lunches.

The bow was redesigned, hosting a comfortable sofa for six people and a table that transforms into a large sundeck for four. The Hard Top protects the area, making it ideal for anchoring as well. The exteriors of the Lancia 42 are designed for a life 'en plein air', combining comfort, safety and versatility.

Lancia Aprèa. Unique by choice.

Lancia 42. The reflection of elegance.

The Lancia 42 translates the soul of the Amalfi Coast into pure, elegant design. Every shade chosen for the hull draws from the natural palette of the landscape: from the deep blue of the bays to the emerald green

of the coves, to the golden reflections of the sun on the limestone cliffs. This visual dialogue pairs seamlessly with mirror-polished mahogany, enhanced by sixteen coats of varnish.

Power and agility

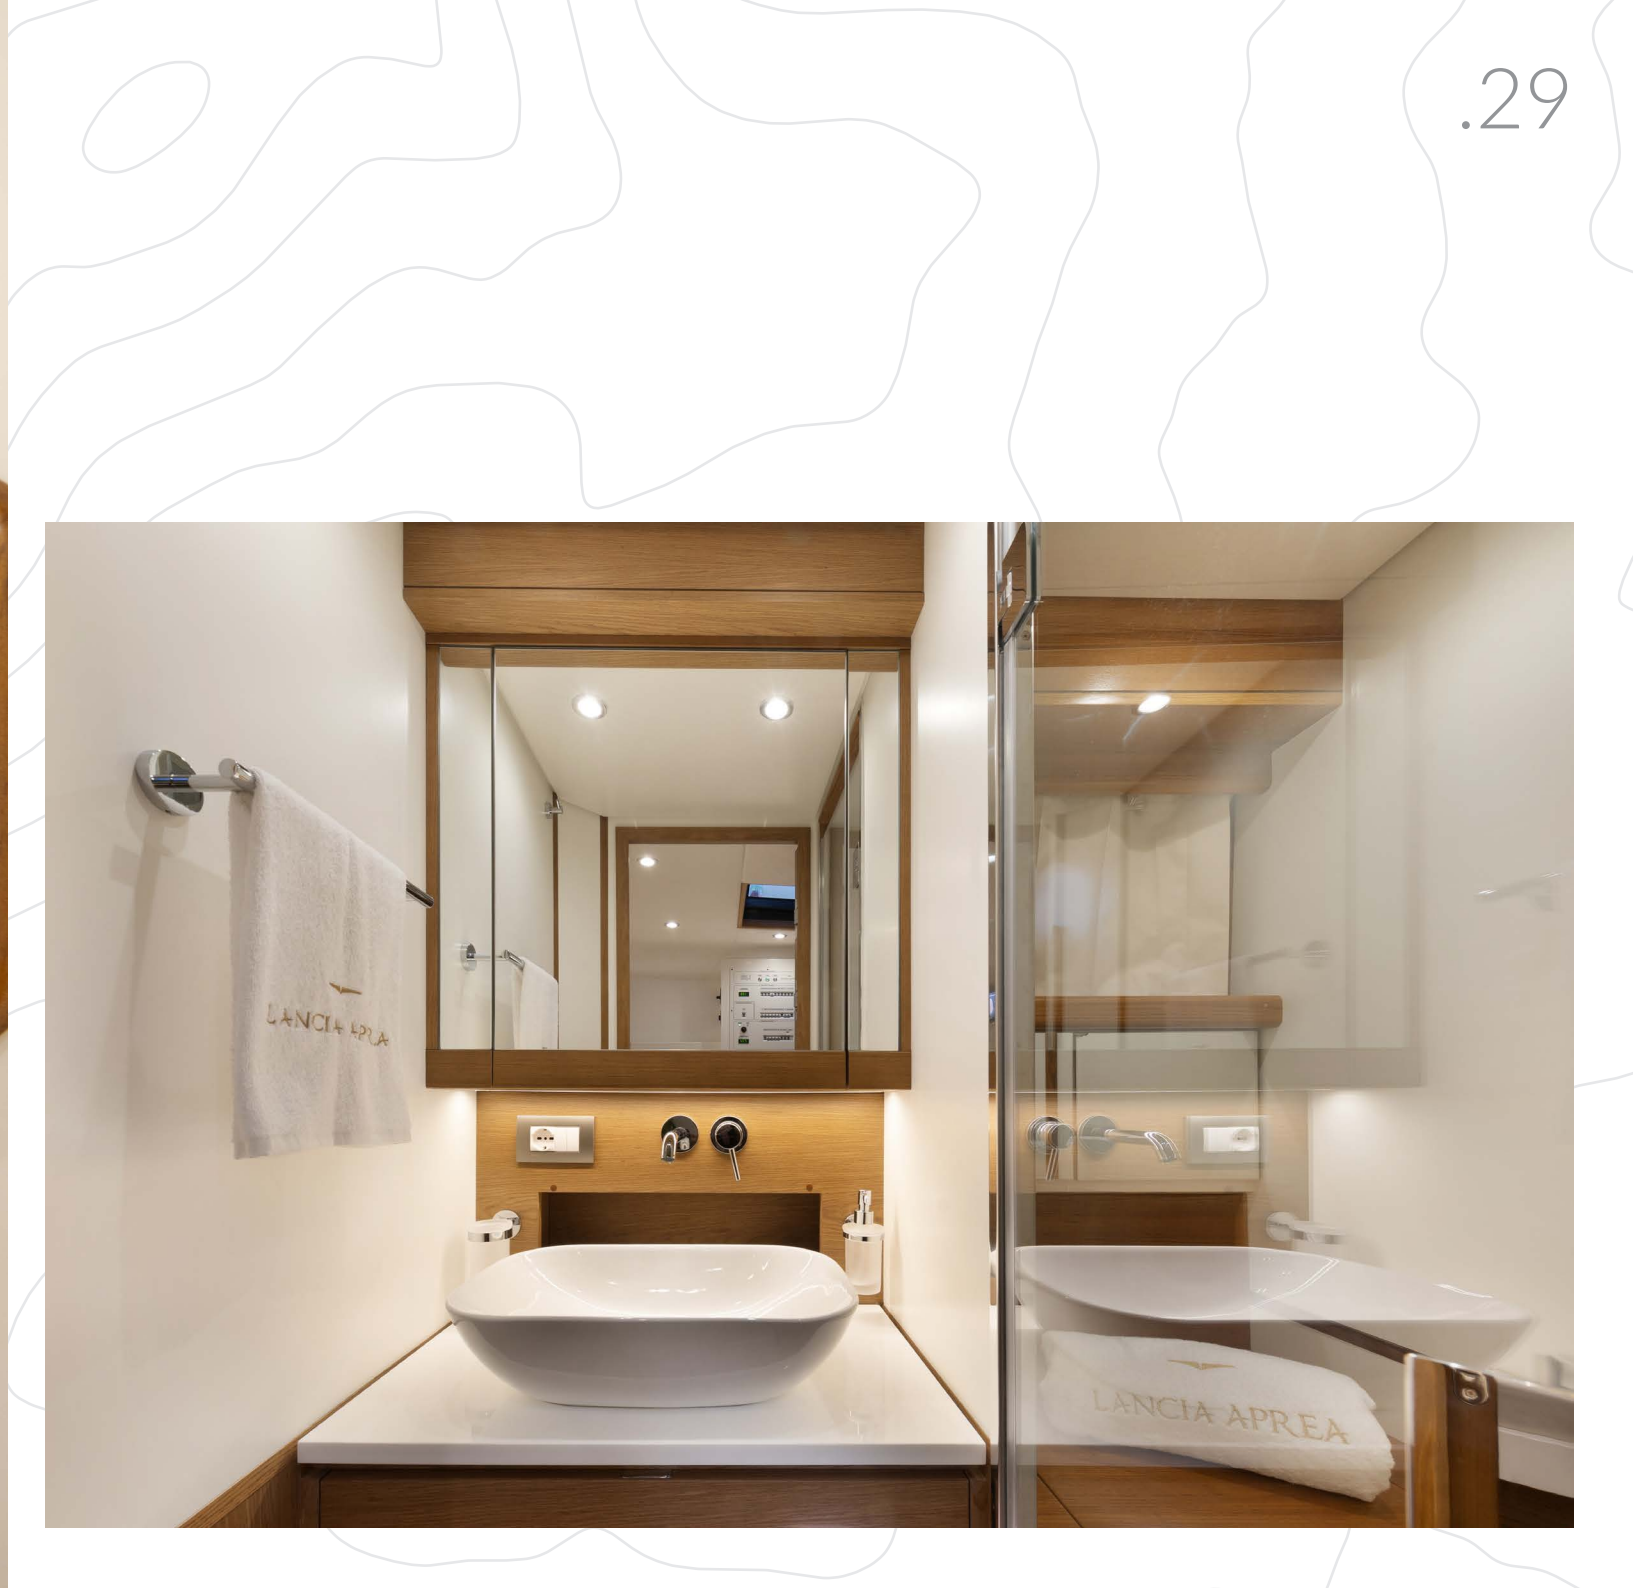

The interiors of the 'Family' model of Lancia 42 are designed for maximum comfort and the welcome of four guests. The internal arrangement includes a guest cabin with two beds and an owner's cabin in the bow, equipped with a double bed. Design optimizes space, offering large compartments for stowing in both cabins. A multifunctional central area includes a furniture bar with a wine cellar, induction hob, sink and coffee machine,

flanked by a spacious bathroom with separate shower. The environment, airy and bright, can also be configured with a dinette-sofa at the bow for those who prefer to use it as a day cruiser. The materials chosen, such as the precious Alcantara and the fabrics of Loro Piana Interiors, give the interiors a touch of luxury and timeless elegance, reflecting the artisan excellence of Cantieri Aperia.
